

COMPUTER CHECKLIST

COMPUTER CHECKLIST ITEMS: *(Tested & In Good Working Order)*

- Laptop computer in good working condition, running the most recent update of its operating system, with adequate empty space on the laptop's internal hard drive (minimum 200 GB).
- At least one (preferably two) external hard drives with minimum 200GB open space. If you're shooting high resolution photos or video, you may need more space, so take that into consideration. Media cards don't count as storage.
- Our photo seminars will focus on Adobe Lightroom Classic CC 12.0. Your laptop should meet the minimum system requirements for Lightroom Classic CC 12.0. You can find them here:
<https://bit.ly/lrcomputer>
- Our photo seminars will also cover on Adobe Photoshop CC 2023. Your laptop should meet the minimum system requirements for Adobe Photoshop CC 2023. You can find them here:
<https://bit.ly/pscomputer>
- Our video seminars will focus on Adobe Premiere Rush CC 2023. Your laptop should meet the minimum system requirements for Adobe Premiere RushCC 2023. You can find them here:
<https://bit.ly/rucomputer>
- Our video seminars may also cover Adobe Premiere Pro CC 2023. If you're interested in Premiere Pro, your laptop should meet the minimum system requirements for Adobe Premiere Pro CC 2023. You can find them here:
<https://bit.ly/prcomputer>
- If you're planning to shoot and edit video, please check our Resources Page for links to download royalty-free music.
- Media card reader for the media your camera uses.
- Required power cables, chargers, adapters, hubs, and dongles for your computer, hard drives, readers and other devices.

REMINDERS:

- Make sure your editing software is downloaded, installed, and tested before coming to the workshop. Internet speeds may not be reliable at the resort.
- Before you leave home, test your computer gear just like you do (hopefully) your scuba and camera gear.
- Be sure to know all your critical passwords for computer and online access.
- To get the most out of our seminars, you must have a basic working knowledge of your computer's operating system, file system tasks, drag and drop, etc.
